

## HP ProCurve 1810G Switch Series

### Product overview

The HP ProCurve 1810G Switch Series provides reliable, plug-and-play Gigabit network connectivity. As the follow-on to the popular HP ProCurve Switch 1800 Series, the 1810G series provides additional network security capabilities, enhancements to ease of use, improved energy efficiency, and expanded deployment flexibility. The series consists of 8- and 24-port 10/100/1000 Web-managed switches. The HP ProCurve 1810G-24 Switch offers two dual-personality ports for optional fiber uplinks, while the HP ProCurve 1810G-8 Switch can optionally be powered by an upstream Power over Ethernet (PoE) switch. Both switches offer silent operation and multiple mounting options for flexible installation. The 1810G series offers network security protection against denial-of-service attacks, a theft protection slot for Kensington Lock (not included), and legendary HP quality backed by the ProCurve Lifetime Warranty at an affordable price.

### Key features

- Web-managed Layer 2 Gigabit switch
- 8- and 24-port models
- Fanless switch for silent operation
- Two dual-personality mini-GBIC slots (J9450A)
- Powered by IEEE 802.3af PoE (J9449A)

# Features and benefits

## Industry-leading warranty

## Connectivity

- **Dual-personality ports (1810G-24 switch):** two 10/100/1000 ports or mini-GBIC slots for optional fiber connectivity such as Gigabit-SX, -LX, or -LH, or 100-FX
- **NEW IEEE 802.3af PoE-powered device option (1810G-8 switch):** can obtain power from a standard PoE device on Port 1, making the switch ideal for deployments where a power outlet is not available; such flexibility helps you to extend the network to wherever an Ethernet cable can reach
- **Jumbo packet support:** supports up to 9216-byte frame size to improve performance of large data transfers

## Resiliency and high availability

- **IEEE 802.3ad Link Aggregation Control Protocol:** provides link-level redundancy with support for up to four trunks on the ProCurve 1810G-8 Switch and eight trunks on the ProCurve 1810G-24 Switch, each with up to four links (ports) per trunk
- **NEW Loop protection:** Loop Detection and Protection feature prevents network loops and promotes high network availability

## Manageability

- **Intuitive Web interface:** enables simple management via an easy-to-use Web browser interface for switch configuration, monitoring, and administration
- **IEEE 802.1AB Link Layer Discovery Protocol (LLDP):** automated device discovery protocol for easy mapping by network management applications
- **NEW Dual flash images:** provides independent primary and secondary operating system files for backup while upgrading

- **Integration with HP ProCurve Manager:** enables discovery and mapping via ProCurve Manager, available as a free download from the Web and provided in box with selected manageable ProCurve devices; provides all the basic tools needed to handle a network effectively, along with a 30-day trial version of HP ProCurve Manager 3.0

- **NEW Energy Savings mode:** automatically places the physical ports in low power mode and LED power down mode to conserve energy

## Layer 2 switching

- **VLAN support and tagging:** support up to 64 port-based VLANs and dynamic configuration of IEEE 802.1Q VLAN tagging, providing security between workgroups

## Security

- **NEW Secure Sockets Layer (SSL):** encrypts all HTTP traffic, allowing secure access to the browser-based management GUI in the switch
- **NEW Automatic denial-of-service protection:** monitors six types of malicious attacks and protects the network by blocking the attacks
- **Management password:** provides security so that only authorized access to the Web browser interface is allowed

## Quality of Service (QoS)

- **Traffic prioritization (IEEE 802.1p):** allows real-time traffic classification into eight priority levels mapped to eight queues

## Monitor and diagnostics

- **Port mirroring:** enables traffic on a port to be simultaneously sent to a network analyzer for monitoring

## Ease of use

- **NEW Locator LED:** allows users to set the locator LED on a specific switch to either turn on, blink, or turn off; simplifies troubleshooting by making it easy to locate a particular switch within a rack of similar switches
- **Comprehensive LED display with per-port indicators:** provides an at-a-glance view of status, activity, speed, and full-duplex operation

◆ For as long as you own the product, with next-business-day advance replacement (available in most countries). The following hardware products have a five-year hardware warranty for the disk drive and lifetime hardware warranty (for as long as you own the product) for the rest of the module: HP ProCurve ONE Services zl Module, HP ProCurve Threat Management Services zl Module, and HP ProCurve MSM765zl Mobility Controller. The following hardware products and their related series modules have a one-year hardware warranty with extensions available: HP ProCurve Routing Switch 9300m series, HP ProCurve Switch 8100fl series, HP ProCurve Network Access Controller 800, and HP ProCurve DCM Controller. The following hardware products have a one-year hardware warranty with extensions available: HP ProCurve M111 Client Bridge, HP ProCurve MSM3xx-R Access Points, HP ProCurve MSM7xx Mobility and Access Controllers, HP ProCurve RF Manager IDS/IPS Systems, HP ProCurve MSM Power Supplies, HP ProCurve 1-Port Power Injector, HP ProCurve CNMS Appliances, and HP ProCurve MSM317 Access Device. Standalone software, upgrades, or licenses may have a different warranty duration. For details, refer to the ProCurve Software License, Warranty, and Support booklet at [www.procurve.com/warranty](http://www.procurve.com/warranty).

- **ProCurve/IEEE Auto-MDIX:** automatically adjusts for straight-through or crossover cables on all 10/100/1000 ports

## Flexibility

- **Designed with no fan:** enables quiet operation for deployment in open spaces
- **NEW Flexible mounting options:** mounting options include wall, ceiling, tabletop, or undertable configuration for flexible installation process
- **NEW IEEE 802.3af PoE-powered device option (1810G-8 switch):** can obtain power from a standard PoE device on Port 1, making the switch ideal for deployments where a power outlet is not available; such flexibility helps you to extend the network to wherever an Ethernet cable can reach
- **1U Rack-mountable size (1810G-24 switch):** offers a rack-mounting option
- **NEW Kensington Lock slot:** allows switches to be secured in open-space deployments

## Warranty and support

- **ProCurve Lifetime Warranty:** for as long as you own the product, with next-business-day advance replacement (available in most countries)
- **Electronic and telephone support:** limited electronic and telephone support is available from HP; refer to the HP website at [www.procurve.com/support](http://www.procurve.com/support) for details on the support provided and the period during which support is available
- **Software releases:** refer to the HP website at [www.procurve.com/support](http://www.procurve.com/support) for details on the software releases provided and the period during which software releases are available
